

Norkelp[®]

DESCRIPTION

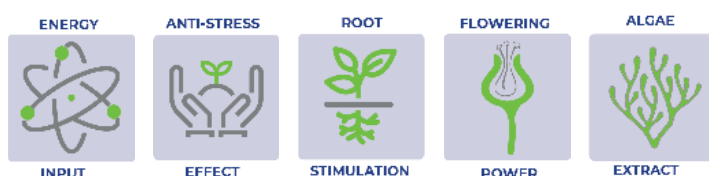

NORKELP is a biostimulant based on natural seaweed of the genus "Ascophyllum nodosum", with 100% pure seaweed extract. In its preparation, it is cold-extracted and chemical-free, which preserves the beneficial components of the seaweed and limits its possible physico-chemical alterations that may occur if it comes into contact with light, heat or chemicals during handling.

FEATURES

Due to its active components, **NORKELP** intervenes in numerous metabolic processes in plants, activating their general growth and acting as a catalyst for multiple processes that enhance their development and response to plant needs.

- Enhances nutrient utilisation processes.
- Its application has a notable effect at demanding phenological moments, such as flowering, fruit set and fattening.
- Prevention of abiotic stress (salinity, drought, frost, etc.).
