

Dunyaquel

Boromol

DESCRIPTION

DUNYAQUEL BOROMOL, is a liquid solution composed of Amino Acids, Boron and Molybdenum highly soluble and assimilable by crops. Its formulation with Amino Acids confers to the product biostimulant properties and boosts the systemicity of the microelements provided, so that the speed of entry and translocation of the elements inside the plant increases, improving efficiency and therefore the beneficial agronomic effects.

FEATURES

Boron is a micronutrient with an important structural and essential role in the growth of plants, being a vitally important agent in the metabolism of nucleic acids and carbohydrates. It is also directly involved in flowering and fruit set, so its deficiency can lead to a loss of production. Molybdenum is involved in the production of the enzyme nitrate reductase. It is involved in processes related to nitrogen efficiency.

PROPERTIES

DECLARED CONTENT

AMINO ACID FERTILISER WITH BORON (B) AND MOLYBDENUM (Mo).	m/m
Free Amino Acids	2,0 %
Boron (B) water soluble	3,0 %
Water soluble Molybdenum (Mo)	3,5 %
pH	8,5
Density	1,15g/cm ³

AMINOGRAM: Aspartic Acid, Glutamic Acid, Alanine, Arginine, Cysteine, Phenyl-Alanine, Glycine, Histidine, Isoleucine, Leucine, Lysine, Methionine, Proline, Serine, Tyrosine, Threonine and Valine

HANDLING AND DOSAGE INSTRUCTIONS

There are numerous crops that have a favourable reaction to the application of Boron and Molybdenum. In the case of Boron, the crops that have a high response to its application are, among others, Alfalfa, Beetroot, Olive, Broccoli, Apple, Carrot, Cauliflower, Sunflower, Rape and Vines.

DUN-FM-2021

Dunyaquel

Boromol

In the case of Molybdenum, the crops that have a high response to its application are cauliflowers, onions, lettuce, melon and legumes.

RECOMMENDED APPLICATION PER CROP

CROP	Dose/Application	Dose/Application	Time of application
Fruit trees	2 l/Ha	5 l/Ha	Pre-flowering-Setting
Olive tree	2 l/Ha	5 l/Ha	Pre-flowering-Setting
Vineyard	1-2 l/Ha	3-5 l/Ha	Pre-flowering-Setting
Leguminous plants	1-1,5 l/Ha		Pre-flowering-Setting
Cauliflower, Broccoli	1-1,5 l/Ha	3 l/Ha	Pre-flowering-Setting
Melon	1-1,5 l/Ha	3 l/Ha	Pre-flowering-Setting
Alfalfa	1-1,5 l/Ha		
Horticulture	1-1,5 l/Ha	3 l/Ha	Pre-flowering-Setting
