

BioSimba

DESCRIPTION

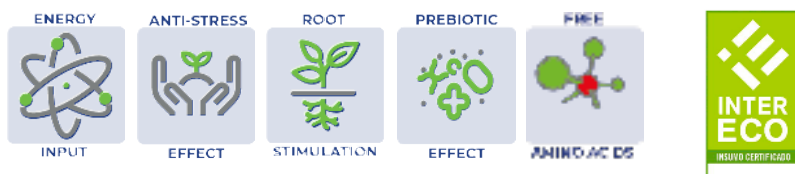

BIOSIMBA, is made up of fully assimilable Levorotatory Free Amino Acids. Its balanced balance of Peptides, Polypeptides and Amino Acids form a biostimulant complex with a high activity on the metabolic processes of the crops where it is applied.

FEATURES

The application of BIOSIMBA, potentiates the response of plants to stress situations, either caused by phenological moments that require a high energy cost, such as flowering, fruit set and ripening, or due to other causes, such as temperature, humidity, etc. This allows the plant to overcome these situations and achieve maximum yields.

PROPERTIES

Product certified for use in organic farming in accordance with Regulation (EU) 2018/848
