

Dunyaquel

Mn-Zn

DESCRIPTION

DUNYAQUEL MANGANESO-ZINC, is a double deficiency corrector for Manganese and Zinc, liquid solution, highly soluble and assimilable by crops. Its complexing by means of lignosulphonic acid gives it great stability, favouring its absorption. This ensures its effectiveness and speed of action, as well as effect on the crop.

FEATURES

The application of **DUNYAQUEL MANGANESO-ZINC** corrects and prevents deficiencies of both elements that occur mainly due to factors that affect availability and absorption, such as low temperatures, soils with high pH, antagonisms, low levels in the soil, high production levels, etc. Under these conditions the probability of finding Manganese and Zinc deficiencies is higher. Its formulation with lignosulphonates is a biodegradable organic polymer of natural origin. It has the capacity to complement the micronutrients, giving them stability and avoiding their blockage in the soil and in the leaf cuticle, favouring them more available to plants. Lignosulphonate in turn has a stimulating effect on plant tissues.

Product certified for use in organic farming in accordance with Regulation (EU) 2018/848

PROPERTIES

DECLARED CONTENT

INORGANIC FERTILIZER COMPOSED OF MICRONUTRIENTS. CFP 1(C)(II)(b). EU FERTILIZER	m/m
Water-soluble Manganese (Mn) Oxide	3,0 %
Manganese (Mn) oxide complexed by LS	2,4 %
Water-soluble zinc oxide (Zn)	5,0 %
Zinc (Zn) oxide complexed by LS	4,0 %
pH	5-6
Stability interval complexed fraction	4-9

GENERAL HANDLING AND DOSAGE INSTRUCTIONS

Foliar application: 200-400 cc/hl, depending on the degree of deficiency or deficiency.

Application to irrigation water: 5-20 l/ha distributed in several applications depending on the level of deficiencies. Apply by foliar spraying in preventive applications..

Apply 2-4 applications throughout the crop cycle, according to needs and development..

RECOMMENDED APPLICATION PER CROP

CROP	Dose/Application	Dose/Application
Fruit and citrus trees	2-4 l/Ha	3-5 l/Ha
Horticulture	2-4 l/Ha	3-5 l/Ha
Ornamentals	2-4 l/Ha	3-5 l/Ha
Olive	2-4 l/Ha	4-6 l/Ha
Vineyard	2-3 l/Ha	2-4 l/Ha
Rice	2-4 l/Ha	
Maize	2-4 l/Ha	
Wheat	1-3 l/Ha	
Barley	1-3 l/Ha
