

EnerGreen

DESCRIPTION

ENERGREEN, is a liquid nitrogen fertiliser. Formulated for foliar and root application in multiple crops. Its application is recommended in phases where a quick activation of the crop is required, either for punctual nutritional needs or for some kind of stress that limits nitrogen absorption.

FEATURES

The importance of nitrogen lies in the creation of plant mass, it stimulates growth, especially by promoting cell division. It is also involved in a large number of processes. One of the most important is the production of chlorophyll, because as it is part of it, it is necessary for its synthesis.

It is also part of amino acids, proteins and nucleic acids. It is an essential part of many enzymes and coenzymes. It is also involved in the formation of sugars, lipids, cellulose and starch. It plays an important role in the production of auxins, cytokinins, vitamins, alkaloids, etc.

PROPERTIES

DECLARED CONTENT

SIMPLE INORGANIC LIQUID FERTILIZER BASED ON MACRONUTRIENTS N 19% WITH MICRONUTRIENTS. CFP 1 (C)(I)(b)(i)

Nitrogen (N) Total	19,0 %
Nitrogen (N) Ammoniacal	0,4 %
Nitrogen(N) Nitric	0,4 %
Nitrogen (N) Ureic	18,2 %
Borom (B)	0,01 %
Copper (Cu) Chelated by EDTA	0,006 %
Manganeso (Mn) Chelated by EDTA	0,01 %
Iron (Fe) Chelated by EDTA	0,02 %
Zinc (Zn) Chelated by EDTA	0,006 %

OPTIONAL INFORMATION

Low BIURET content, allowing foliar applications without toxicity.

OK

EnerGreen

HANDLING AND DOSAGE INSTRUCTIONS

FOLIAR APPLICATION: 400-800 cc/hl of water.

APPLICATION TO IRRIGATION WATER: 15-20 L/Ha.

It is recommended to apply at times when it is necessary to increase vegetative activity.

RECOMMENDED APPLICATION PER CROP

CROP	Dose/Application	Dose/Application
Fruit trees	4-8 l/Ha	15-20 l/Ha
Horticulture	3-6 l/Ha	10-15 l/Ha
Ornamental plants	4-8 l/Ha	10-15 l/Ha
Olive tree	6-10 l/Ha	15-20 l/Ha
Vineyard	4-6 l/Ha	10-15 l/Ha
Extensive Crops	4-6 l/Ha	10-15 l/Ha
