

NutriPot

DESCRIPTION

NUTRIPOT, liquid solution with a high concentration of fully soluble potash. NutriPot contains EDTA, avoiding reactions of the formulated product with the phytosanitary products of the broth to be. This increases the efficiency of the treatment. The properties of the potassium solution are ideal for use via foliar application and in high temperature conditions.

FEATURES

- Potassium-rich formulation with **sequestering agents**.
- Its formulation facilitates **absorption and consequently its efficacy**.
- Despite its high concentration, it does not cause blockages and interactions with other nutrients.
- Activates the formation of **sugars and oils**.
- Increases **crop resistance to drought, frost and diseases**.
- It promotes the **synthesis of lignin**, with a consequent increase in the stiffness and structure of the crop.
- It promotes the **formation of carbohydrates** in the leaves while participating in the formation of proteins.
- Increases **crop quality and quantity**.

PROPERTIES

DECLARED CONTENT

COMPOUND INORGANIC LIQUID FERTILIZER BASED ON MACRONUTRIENTS PFC 1(C)(I)(b)(ii) EU FERTILIZER			w/v	w/w
Nitrogen (N) total			4,5 %	3,0 %
Nitrogen (N) ureico			4,5 %	3,0 %
Óxido de Potasio (K ₂ O) soluble en agua			45,0 %	30,0 %
pH			11	
Densidad			1,50 g/ml	

OPTIONAL INFORMATION

Contains EDTA

OK

NutriPot

HANDLING AND DOSAGE INSTRUCTIONS

FOLIAR SPRAYING:

The average application rate for most crops is between 300-400 cc/hl, with 2-3 applications, according to needs.

DOSE TO IRRIGATION WATER: Applications of 6-15 are recommended, with two to three applications during the last third of the crop.

TIME OF APPLICATION:

In the stock accumulation phases, coinciding with the last third of cultivation.

RECOMMENDED APPLICATION PER CROP

CROP	Dose/Application	Dose/Application
Fruit trees	3-4 lt/Ha	8-15 l/Ha
Horticulture	2-4 lt/Ha	6-12 l/Ha
Tomato	2-4 lt/Ha	6-12 l/Ha
Olive tree	4-5 lt/Ha	8-15 l/Ha
Vineyard	2-4 lt/Ha	8-10 l/Ha
Beetroot	4-6 lt/Ha	6-8 l/Ha
Potato	4-6 lt/Ha	6-8 l/Ha
Wheat, Barley, Rice, Rapeseed, Soy	2-4 lt/Ha	
Peas, Beans, Broad Beans	2-4 lt/Ha
